

Integrated Management System Policy

WWL, a company dedicated to provide Engineering and Supervision Services in mining operations, with high standards of quality, safety, occupational health and environment, generates added value for our stakeholders, oriented to continuous improvement processes.

The MIS Policy reflects our purpose of strengthening operational excellence, guaranteeing stakeholder satisfaction and contributing to the sustainable development of the sector in which we operate, as well as obtaining extraordinary results in our Integrated Management System.

Conscious of our purpose, we are committed to:

- To develop quality services, involving the organization under the concept of continuous improvement of the Integrated Management System.
- Promote occupational health and safety by preventing work-related injuries, illnesses, diseases and incidents, as well as implementing the necessary controls to eliminate hazards and reduce risks to ensure a safe and healthy work environment for our employees and stakeholders.
- Prevent pollution and mitigate environmental alteration, identifying the environmental aspects of our activities, in order to control environmental impacts, through the implementation of control measures that promote the efficient use of natural resources.
- Comply with legal requirements and other requirements that are assumed in relation to the Integrated Management System applicable to the organization.
- Promote training and sensitization of employees to strengthen the culture of safety, occupational health, environment and quality.
- To guarantee the consultation and participation of employees and their representatives, and thus contribute to the performance of the Integrated Management System.

The management system policy is reviewed for its timely compliance, ensuring its understanding and application at all levels of the organization; it is also communicated and made available to interested parties.

To achieve these commitments we have qualified personnel, our own technology and an organizational culture aimed at achieving continuous Improvement of the Management System and its performance.

Senior Management
Francisco Garcia
